7. DATA ACCURACY RULES

- Duplicate orders must be flagged.
- Missing customer details must be flagged.
- Missing order status must be flagged.
- Delivered orders without confirmation must be flagged.
- Revenue mismatch must be flagged.
- Missing delivery information must be flagged.
- Long-pending backlog must be flagged.
- Rescheduled orders must be tracked.
- Unresponsive customers must be tracked.
- The system must NOT silently change or reconcile conflicting figures; discrepancies must be flagged for review.
- Every dashboard figure must be traceable to the individual order records behind it.
- Delivery rate must always be calculated from HANDLED orders, not CONFIRMED orders.
- Ghana revenue must remain in GHC and must not automatically be mixed with Naira revenue.
